873 ARE AIDED BY ASSOCIATION

Report of Calumet's Organized
Charities is Given Out

From Nov. 1 to March 1, four months of the winter season, the Calumet Associated Charities extended material relief to a total of 873 individuals, according to the report made public today by the secretary, Miss Clara Jones. The association's books show 340 cases in the first half, 127 and 406 in the second half, principally each year being that of a family of two or more.

Widows, families in distress through the illness of the wage earner or the fact that he has been incapacitated and deserted women make up the bulk of the cases as shown by the following statement of social status of new and old cases: Widows, 62; married couples, 33; deserted women, 21; widower, one; orphan, one. The total number of married couples requiring relief is considerably higher than usual and this in a measure may be attributed to the strike.

Nationalities Aided.

The nationalities those helped were as follows: Finnish, 81; Austrian, 20; Croatian, 18; English, 16; Italian, 9; French, 5; Irish, 2; Polish and Norwegian, 2 each; German, American, Swedish, Scotch and Hungarian, one each.

During the four months period there were 668 applications for aid at the office of the association. This number not including the hundreds extended special help through the medium of the association during the Christmas period, this latter assistance having been very substantial and having been made possible through the kindness of a Calumet "good fellow." Officers of the association made 126 visits to or in the interests of families in distress, held 24 conferences and made 35 reports.

Relief was obtained from twenty-five fraternal societies, thirty individuals, five physicians, one school, from the county in three instances and legal assistance in two instances. This relief included both material assistance and personal service.

The association is very anxious to receive criticisms or suggestions from anyone interested in the work, which may be given either personally or by letter. So that other work may not be duplicated, all persons desiring to help distressed families are requested to notify the association and ascertain whether or not the family is receiving other help and the extent of the need.

The duties of the Associated Charities are continuing for a campaign for the benefit of the association to be conducted the latter part of the month. It was announced last night. The date will be made public later.
